PROFESSIONAL EXPERIENCE

Senior Product Designer / Sunday

MAY 2023 - PRESENT

- Leading design delivery and effectively managing distribution of tasks within the team for retail platform, Jolly super app, and Jolly HR designs.
- Designed autolink multiple policies feature that boosted the policy link rate by 76% on the first month of implementation for Jolly super app.

Product Designer / Shopee

JUL - NOV 2022

- Designed intuitive solutions to improve the seller centre and buyer marketplace experience based on the existing regional design system.
- Communicated with cross functional teams to develop solutions, receive feedback, and manage multiple projects in a fast-paced environment.

Senior Product Designer / Tokoplas

SEP 2020 - JUN 2022

- Worked closely with management and engineers to redefine the user experience of the e-commerce website, seller portal, and mobile apps.
- Led the design efforts of the new website and seller portal as well as creating design system, mockups, and prototypes for development.

UI/UX Designer / Zau Software

DEC 2019 - APR 2020

- Collaborated with engineers and product experts to design flows and features for the new web booking engine and back-office platform.
- Developed wireframes, high-fidelity mockups, and interactive prototypes for the new web booking engine and back-office platform.

Digital Designer / PayByPhone

OCT 2018 - APR 2019

- Redefined the user experience and redesigned the interface of the new parking operators (B2B) and careers pages.
- Produced marketing materials for print and digital such as promotional banners, posters, postcards, display ads, and social media graphics.

UI/UX Designer / BSTRO

MAY - SEP 2018

- Collaborated with designers in an agency environment to design digital experiences for J&J, Chef Software, and San Francisco Marathon.
- Day-to-day included creative concepting, competitive analysis, sitemap drafting, wireframing, mockups design, and prototyping.
